

## Rende - The Civic Museum

Between 1980 and 1985 in Rende arose **The Civic Museum** inside the Zagarese building. It is divided in two parts: the folklore section and the art gallery. The folklore section, dedicated to the famous calabrian anthropologist Raffaele Lombardi Satriani, documents a collection of more than 3000 objects from the culture of the Calabria Citeriore which is about the Cosenza province. The art gallery is dedicated to the painter Achille Capizzano, born in Rende. One can also find works by Mattia Preti and many other Italian artists.

The museum is developed on nine rooms, but is in the process of rearrangement.
